Breathable

Moisture wicking

Pressure sensitive
memory foam

The ARCTIC GEL Pillow is designed to stand up against severe heat to maintain the optimal sleeping temperature. The supportive and durable molded memory foam is topped with a layer of cooling gel to absorb the ambient temperature of the room and equalize potential overheating. To accompany the ARCTIC GEL Pillow, the CoolMax cover is created with moisture-wicking technology in order to absorb and remove excess moisture from the skin and ensure a cooler, cleaner sleep.

Size: 24"x16"

Item#: PLW100056

The ARCTIC GEL Contour Pillow integrates the cooling technology of a gel with the pressure sensitivity of a memory foam to create the most comforting sleeping environment. The cooling gel is designed to absorb the surrounding air and enhance temperature circulation—a perfect solution for those who are prone to overheating. The memory foam is molded into curves that embrace the contours of the neck and shoulders to provide reliable support and comfort.

Down
alternative

The SeasonSense Reversible Pillow brings function and versatility into design by combining the benefits of the Arctic Gel Pillow with that of a warmer down-based pillow. On one side, the molded memory foam is topped with a layer of cooling gel to regulate temperature and prevent overheating. The reverse of the Pillow is filled with a micro-thin denier down-alternative that insulates the body's natural heat to sustain warmth throughout the night. The ability to flip back and forth between the two experiences makes the SeasonSense Reversible Pillow suitable for all 4 seasons.

Made with 100% cotton, the COMBED MICRO PLUSH Mattress Protector is highly absorbent and gives the mattress unbeatable protection. Because of the longer spun loops in the terrycloth tissue, a larger surface area is created and the material's absorbency is elevated. The COMBED MICRO PLUSH Mattress Protector offers hypoallergenic and anti-dust mite properties without compromising breathability or comfort.

MICROQUILT

Mattress Protector

The MICROQUILT Mattress Protector preserves the mattress while providing an extra layer of comfort and support. To ensure full protection of the mattress, the materials are 100% waterproof and the elastic skirt provides a perfect fit. Constructed with anti-dust mite and hypoallergenic properties, the MICROQUILT Mattress Protector is just as practical as it is luxuriously comfortable.

Cool gel
infused

Composed of gel-infused memory foam the GEL INFUSED Mattress topper will drastically improve the condition of any mattress. The supported loft of memory foam reduces the impact of pressure points while correctly aligning the spine throughout the night. The GEL INFUSED Mattress Topper utilizes temperature-control technology which absorbs and removes excess body heat to deliver tranquility and balance. Unlike many toppers on the market, we've worked to up our gel content and use an exaggerated open cell structure in order to provide support and without overheating.

The BAMBOO TRANQUILITY Pillow draws from Earth's natural elements to deliver conforming support and comfort to the sleeping experience. Created by encasing clusters of shredded foam in a shell of molded memory foam, the BAMBOO TRANQUILITY Pillow is a unique form that combines the comfortable adaptability of shredded foam with the consistent support of a molded form. Enclosing the pillow is an ultra-soft, bamboo-rayon case, which utilizes earth's natural materials to provide an optimal level of comfort.

The GRACE Sheet Collection offers the refined impact of luxury linens while also providing a wide array of practical features. The dense microfiber material is machine-washable, hypoallergenic and dust mite resistant with an ultra-soft surface. With gentle woven stitching lining the edges of the material and its availability in a wide variety of sizes and hue, the GRACE Sheet Collection will add a delicate style to any bedroom.

Grace Collection Microfiber sheet set

A revolutionary sleep surface

Our mission was to design a line of products that can help you sleep well at night, not just because of their overwhelming comfort but knowing they are all 100% environmentally friendly. Creating eco-friendly products without sacrificing form or comfort is an enormous challenge. After exhaustive research and development we are very proud to share our new eco-friendly line: EcoSoft.

Key Features

- Temperature Control utilizing natural materials that wick-away heat
- Elimination of petroleum by-products and a pH neutrality
- Plant-based construction with harmless oils such as castor and soy
- Resilient durability because of their natural resistance to absorb moisture
- Extremely hygienic , antibacterial and resistant to harbor unpleasant odors

Our Eco Friendly Process

- Reduces Carbon Dioxide emissions by 36%
- Reduces non-renewable energy by 61 %
- Reduces total energy demand by 23%

The Core Natural Foam Pillow is considered the foundation of our EcoSoft Collection. Made from our carefully-constructed high-grade EcoSoft foam, the pillow transforms the traditional memory foam pillow into an eco-friendly product without sacrificing comfortability. With a surface naturally cooler than traditional memory foam, the CORE Natural Foam Pillow maintains the most ideal temperature for sleep while its bamboo-rayon case wicks moisture away for a cooler, fresher experience.

The Fusion Foam & Down Pillow draws from a variety of materials in order to provide an ideal combination of softness and support. A thick molded layer of EcoSoft foam is surrounded by a cotton case lined with duck down and feather to create an unbelievably soft surface supported by a firm, conforming core. The cover is 100% cotton and the materials are naturally cool to ensure a fresher, more natural sleeping experience.

The Contour Curved Natural Foam Pillow caters specifically to back and side sleepers, providing curves that conform seamlessly to the contours of the head, neck and shoulders. Utilizing the EcoSoft foam at a slightly higher density than other EcoSoft products allows the pillow's more slender form to maintain the ideal level of support. Enclosing the CONTOUR Natural Foam Pillow is a bamboo-rayon case which offers a soft, smooth, hygienic surface to the molded form.
